

Senior Housing Notes

Jan 13, 2023

At last night's Senior Housing Work Group meeting, we worked on the structure of our planned Focus Group meeting. Rather than a meeting open to the general public, we feel it would be more productive to hear from a group of about 15 people with diverse experiences and perspectives on senior housing.

Since there's significant overlap among our seven work groups, we hope that there will be a representative from each work group at this Focus Group meeting. We have not yet set a date for the meeting, but it will probably be in late March. We hope that you or another member of your work group will be represented.

In a related matter, Tamie Reed from the Office for the Aging has provided a link to the rest of our work group of a short publication about rural New York, published in 2022 by AARPNY. There's a section on Housing that may be useful to members of all the work groups. Check out <https://link.edgepilot.com/s/b30da2ff/s1FEQDdC70KxJI5I9viF7w?u=https://online.flippingbook.com/view/224632168/>

More information will be forthcoming.
