

Members present; Carolyn Marks, Chief Witzenberg, Ed Overbey.

Recap: We discussed encouraging neighborhood cohesiveness. The process to accomplish neighborhood cohesiveness is for council members to identify one or more ward stewards who would recruit residents to organize neighborhood events that will lead people making new acquaintances.

We also discussed that the number of OPD calls to center city addresses has declines, indicating a trend toward security.

We did not identify a chair for this workgroup.

Question: What is the interface between our Workgroup and Common Council to initiate this process?
